

5th Congress of the Balkan Association of Orthodontic Specialists

Belgrade, 25 – 28 November 2021

PROGRAM

SERBIAN
ORTHODONTIC
SOCIETY

Dear colleagues from the Balkan Association of Orthodontic Specialists and Serbian Orthodontic Society,

We truly believe that the global crisis caused with the coronavirus can't stop our need for professional interaction.

Unfortunately, the world that we used to know has changed in just a few months. We all remember the great atmosphere, events and pleasant moments that we spent together in previous years and we hope that we will be able to get together again soon!

We are informing you that Serbian Orthodontic Society has the honor to host the 5th National Symposium associated with the 5th Congress of Balkan Association of Orthodontic Specialists in Belgrade, from 25-28 November, 2021.

Given a new pandemic situation, organizing committee had to make a hard decision to start with the organization of virtual events.

Serbia is known as a country of great hospitality, rich historical heritage and numerous natural beauties. Belgrade, as its capital, is an open multicultural and vibrant city, the bright symbol that is inviting all our friends to join us and exchange knowledge.

This reunion should definitely be the best way to build ourselves as better clinicians because our patients deserve that.

The motto of the 5th BAOS congress "Knowledge brings light" reminds us one more time that without permanent need to learn we stay in darkness.

We will learn how to use mini screws in everyday orthodontic practice, how to use fixed functional appliances in correction of class II malocclusion. We will meet principles of class III treatment in correlation with patients age, advantages and disadvantages of invisalign technique in comparison to straight wire technique.

We will be introduced to the Tweed Merrifield philosophy in treatment of class II malocclusion.

The congress is designed to emphasize a multidisciplinary approach with special attention to cooperation between orthodontist and periodontist. The idea was to highlight guidance of orthodontic treatment according to biological principles in function of periodontal health and stability of the results.

Our distinguished speakers from United States of America, Canada, Mexico, Italy, Germany, Poland and whole Balkan region will present the evidence-based orthodontics, standards of diagnostic procedures, and interdisciplinary treatment protocols from a new perspective!

Join us to learn together!

Ass. Prof. dr Predrag Janošević DDS, MS, PhD, DSc

President of the Balkan Association of Orthodontic Specialists

P. Janosevic

Thursday, 25 November 2021

Course: Orthodontic treatment based on mini-implants in buccal alveolar bone

10.00–11.30 Basics of skeletal support. Characteristics and differences of orthodontic mini implants. Planning and procedure of mini implant placement in the alveolar process.
Nenad Nedeljković

11.30–11.45 Coffee break

11.45–13.15 Classification and selection of mechanics based on skeletal anchorage. Biomechanical constraints. The most common complications and their resolution.
Miodrag Popov

13.15–14.30 Lunch break

14.30–16.00 Determining the mini implant location. Safe zones.
Nenad Nedeljković
Miodrag Popov

16.00–16.15 Break

16.15–17.45 Installation of mini implants in a plastic model of the jaw with teeth in different places. Planning mechanics by direct or indirect loading of a mini implant.
Nenad Nedeljković
Miodrag Popov

Friday, 26 November 2021

| | | |
|-------------|---------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| 09.30–10.00 | Opening Ceremony | |
| 10.00–11.00 | Benefits and Factors that Determine the Success in the Orthodontic Practice Sergio Cardiel |  |
| 11.00–11.30 | New aspects of Mandibular Anterior Repositioning Appliance (MARA) Nenad Popović |  |

| 11.40–11.50 | Did covid-19 changed orthodontics or not Radmila Dimovska |  |
| 11.50–12.15 | Discussion | |
| 12.15–14.00 | Lunch break | |
| 14.00–15.15 | Interdisciplinary treatment fashion or a must Liwia Minich |  |
| 15.15–16.00 | Orthodontic care for periodontal health Predrag Janošević |  |
| 16.00–16.30 | Esthetic crown lengthening after orthodontic treatment Nataša Nikolić Jakoba |  |
| 16.30–16.50 | Discussion | |
| 16.50–17.20 | Coffee break | |
| 17.20–18.20 | The 3D Airway and How to Manage OSA in a busy Orthodontic Office J. Martin Palomo |  |
| 18.20–18.50 | Evidence-Based Orthodontics – Is the Truth Out There? Neda Stefanović |  |
| 18.50–19.00 | Discussion | |

Saturday, 27 November 2021

| | | |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| 09.30–10.00 | POSTER SESSION | |
| 10.00–11.00 | Back to basics: en ethical duty? Giovanni Biondi |  |
| 11.00–12.00 | Maxillary molar distalisation with mini-screw implant Supported Appliances Moschos A.Papadopoulos |  |
| 12.00–12.30 | Impact of incisor inclination on facial esthaetics: clinical cases Biljana Reba |  |
| 12.30–12.45 | Discussion | |
| 12.45–14.00 | Lunch break | |
| 14.00–15.15 | Invisalign treatment and digital orthodontics Miloš Lekić |  |
| 15.15–15.25 | Molar uprighting with the use of mini-implants-case report Slavka Petrović |  |
| 15.25–15.45 | Discussion | |
| 15.45–16.15 | Coffee break | |
| 16.15–16.45 | Early treatment of class III malocclusion Jovana Juloski |  |
| 16.45–17.15 | Dental Problems and Treatment Approaches in individuals with Cleft Lip and Palate Ayşe Tuba Altuğ |  |
| 17.15–17.45 | The modern approach to the complete dental care of patients with impacted teeth and the interceptive management of occlusion Gabriela Kjurchieva-Chuchkova |  |
| 17.45–17.55 | Skeletal profile changes after orthodontic surgical therapy class III malocclusion Dragana Vejnović Brašić |  |
| 17.55–18.15 | Discussion | |
| 18.15–19.00 | SPONSORED LECTURE: TAD-supported forced eruption: rational and biomechanics Cesare Luzi |  |
| 19.00–19.10 | Discussion | |

Sunday, 28 November 2021

| | | |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
| 09.00–09.45 | Unum Necessarium Dennis Ward |  |
| 09.45–10.45 | Treatment Planning for Long term Stability James L. Vaden |  |
| 10.45–11.00 | Discussion | |
| 11.00–11.20 | Coffee break | |
| 11.20–12.35 | Ideal vs Optimal Treatment Plan Mauro Cozzani |  |
| 12.35–12.45 | Terapija prekobrojnih sekutića u donjoj vilici-prikaz slučaja Maja Babić Kojić |  |
| 12.45–12.55 | Discussion | |
| 12.55–14.00 | Lunch break | |
| 14.00–14.45 | What is the role of family in orthodontic treatment during puberty? Stjepan Spalj |  |
| 14.45–15.15 | Orthodontic treatment and Oral Health- Related Quality of Life in young adult patients Çeljana Toti |  |
| 15.15–15.25 | Use of linear and angular measures to prove mandibular asymmetry on orthopantomogram Nikola Furundžić |  |
| 15.25–15.35 | Soft tissue profile changes after orthognathic surgery in patients with class III malocclusions Jelena Jovičić |  |
| 15.35–15.45 | Discussion | |
| 15.45–16.00 | Coffee break | |
| 16.00–16.30 | Sponsored Lecture: Adapt GET to your practice!  Christian Samoila |  |
| 16.30–16.40 | Discussion | |
